EUGLOHRIA Research seeding grant (projects and/or platforms)

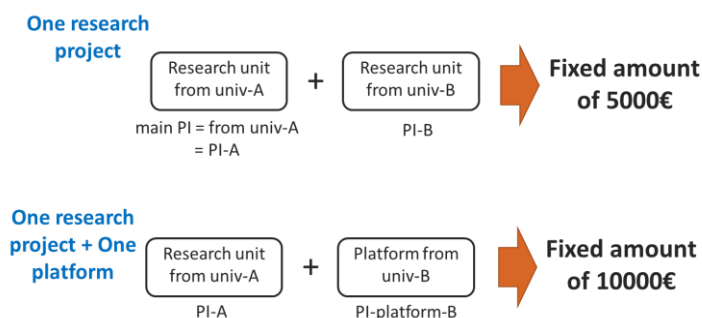

Deadline: May 30th, 2023

The EUGLOH alliance is a research cooperation between University of Paris-Saclay, Lund University, University of Porto, Szeged University, and Ludwig Maximilian University of Munich, supported by a H2020 project entitled EUGLOHRIA (The European University Alliance for Global Health –Transformation through Joint Research and Innovation Action).

EUGLOHRIA focuses on enhancing European-level and cross-sectoral collaboration in research and innovation. Within this project, **research units and infrastructures relevant for pandemics-related research have been identified** within the alliance. The present EUGLOHRIA call is now being launched with the aim of fostering new scientific collaborations and synergies within the field of pandemics-related research.

EUGLOHRIA offers seeding grants for carrying out research projects within the alliance (*) by two options:

1. Associating two research teams (from two different partner universities), or
2. Associating one research team and a research platform (belonging at another partner university than that of the research team)

The grant contributes up to **5000€** or **10000€** depending on the selected option (above) to cover costs for travel, accommodation, consumables, sample shipping, possible running costs of a platform.

Selection process: Each proposal will be reviewed and evaluated by two academic reviewers (review board) from the five universities of the EUGLOHRIA universities.

The application form can be found on the next page. It should be sent to the main applicant's home partner university:

University of Paris Saclay: euglohria.upsaclay@universite-paris-saclay.fr

Lund University: euglohria@med.lu.se

University of Szeged: euglohria@szte.hu

University of Porto: euglohria@up.pt

Ludwig-Maximilian University of Munich: euglohria@lmu.de
